## DIGITAL

**E**PTAINKS *DIGITAL* develops, manufactures and promotes **digital printing inks**.

---

We offer our customers quality solutions for applications in the **textile and in the graphic fields**, in Industries like Packaging, Signage, Leisure, Habitat and Fashion.

Our products are developed for the most common **printing machines and printheads**.

The technology range – **acids, reactives and sublimation water-based inks, solvent-based and UV inks** – ensures excellent results on many surfaces and allows high flexibility, suitable also for small and medium productions.

We also supply **top brand consumables, digital printers and software rip** to meet the customers' needs during the production process.

Our specialized and long experienced **technical service** plays a key role, dealing with any customer's doubt or request in a fast, efficient and customized way.

EPTAINKS *DIGITAL* products, developed under the **brand Verojet**, are worldwide distributed through a network of reliable and capillary partnership on the territory.

Our international vocation joins up with the attention and care for each single customer and its business, according to one of the key values of EPTA community: «**Locally acting while globally thinking**».
