Encre Nano Pour Tête piezzo

Il faut savoir que cette nouvelle génération d'encre comporte des couleurs extrêmement denses nécessitant une réduction importante des densités, ce qui n'est possible qu'avec certains Rip et pas d'autres.

Il est possible de mettre en particulier les traceurs Roland en 3 setting différents, permettant ainsi l'utilisation de 3 générations différentes d'encre Nano.

ECO-SOL : encre éco-solvant sans odeur pour l'impression **Forex**, vynile, Pet

DIRECT-INK : encre (non résistante à l'alcool) résistant à l'eau, pour l'impression sans pré-coating

Dibond , aquilux, Kappa, Plexiglas, aluminium ,fer, argent, or ,cuire

PC-INK: encre résistant à l'alcool pour impression sans pré-coating

PET Polycarbonate et pet cuir

L'utilisation de ces encres de nouvelle génération nécessite un Heater spécial à fin d'évaporer l'encre instantanément à l'impression afin d'obtenir un résultat parfait

.....

Nano ink For Head piezzo

It should be known that this new generation of ink comprises extremely dense colors requiring a reduction important of the densities, which is not possible that with certain RIP and not of others.

It is possible to put in particular Roland the different tracers into 3 setting, thus allowing the use of 3 generations different of Nano ink.

ECO-SOL: ink éco-solvent without odor for the Forex impression, vynile, Fart

DIRECT-INK: ink (nonresistant to alcohol) water resistant, for the impression without pre-coating

Dibond, aquilux, Kappa, Plexiglass, aluminium, iron, money, gold, to cook

PC-INK: ink resisting alcohol for impression without pre-coating

FART Polycarbonate and fart leather

The use of these inks of new generation requires special Heater at end to evaporate ink instantaneously with the impression in order to obtain a perfect result
