## OVERVIEW

The Quartz Q50-RTR-EF is a wide-format Roll-to-Roll UV-Curable ink optimised for the EFI<sup>®</sup> Roll-to-Roll GS and QS Series Printers. This flexible ink is designed for a large number of self-adhesive and flexible media applications.

The Quartz Q50-RTR-EF is a high density ink that cures with Mercury Vapour UV lamps. This fast curing ink is suitable for high speed printing.

This formulation is designed for compatibility across a broad range of print head types and features a high density colour gamut for bright, vivid images.

Provided the inks are used in regular applications, using suitable substrates, the printed images will last for up to 12 months.
